

Great looks  
Top Quality &  
Maintenance Free

# ROOFLINE

*Transforming your home is easy with FineGlaze*

**FineGlaze**

## Roofline

*Transform the look of your home...*

Fineglaze can help transform the look of your home and replace rotting, peeling and leaking roofing products with our durable, low-maintenance, great-looking range.

Our products include guttering and downpipes, fascias and soffits, bargeboards and cladding, all of which will smarten up your home and help keep it damp-free. Whenever we fit any of these products, we remove the existing product carefully and check the structure beneath to ensure we deal with any existing problems properly rather than just covering them up.

"We had started to have real problems with both water getting in and also birds making nests behind rotting fascias. The new fascias and soffits look fantastic and have dealt with both of those problems."  
*Mrs Churcher*

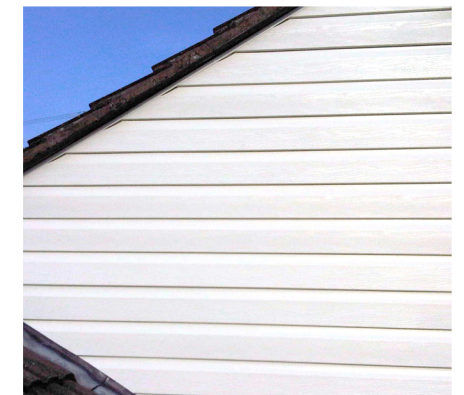

## Fineglaze Cladding

*Transform the look of your home...*

**Our range of virtually maintenance-free, high performance White PVC-U Cladding only needs an occasional wipe with a damp cloth to keep it looking like new for years to come.**

If you choose to fit cladding, you make your home even more maintenance-free, easily cleaned and looking fantastic.

All of our products are available in a range of designs and colours to suit your preferences and your home.
