Why Choose Us?

*Great looks, highly energy-efficient, incredibly secure, top quality and maintenance-free: that's what you get with every window installed by Fineglaze.*

And when it comes to rooftrim products, our range will transform the look of your home and prevent rot and damp problems.

We are a local, family-run company and have built our reputation on providing an attentive service and top quality products and we will work with you from initial inquiry to final installation to ensure you are nothing short of delighted with your purchase.

The quality and range of windows available mean we can supply you with the ideal window, whatever your requirements and whatever the style of your home. Our rooftrim products may be less glamorous but that doesn't make them less important - they bring peace of mind as well as a great new look.

Our promise is to provide you with all the information you need, never to put pressure on you to make a purchase, and to always treat your home with great care and respect. As a family-run company with many years in this business, our reputation is everything so we will stop at nothing to ensure you are delighted with your new windows and rooftrim.

## Casement Windows

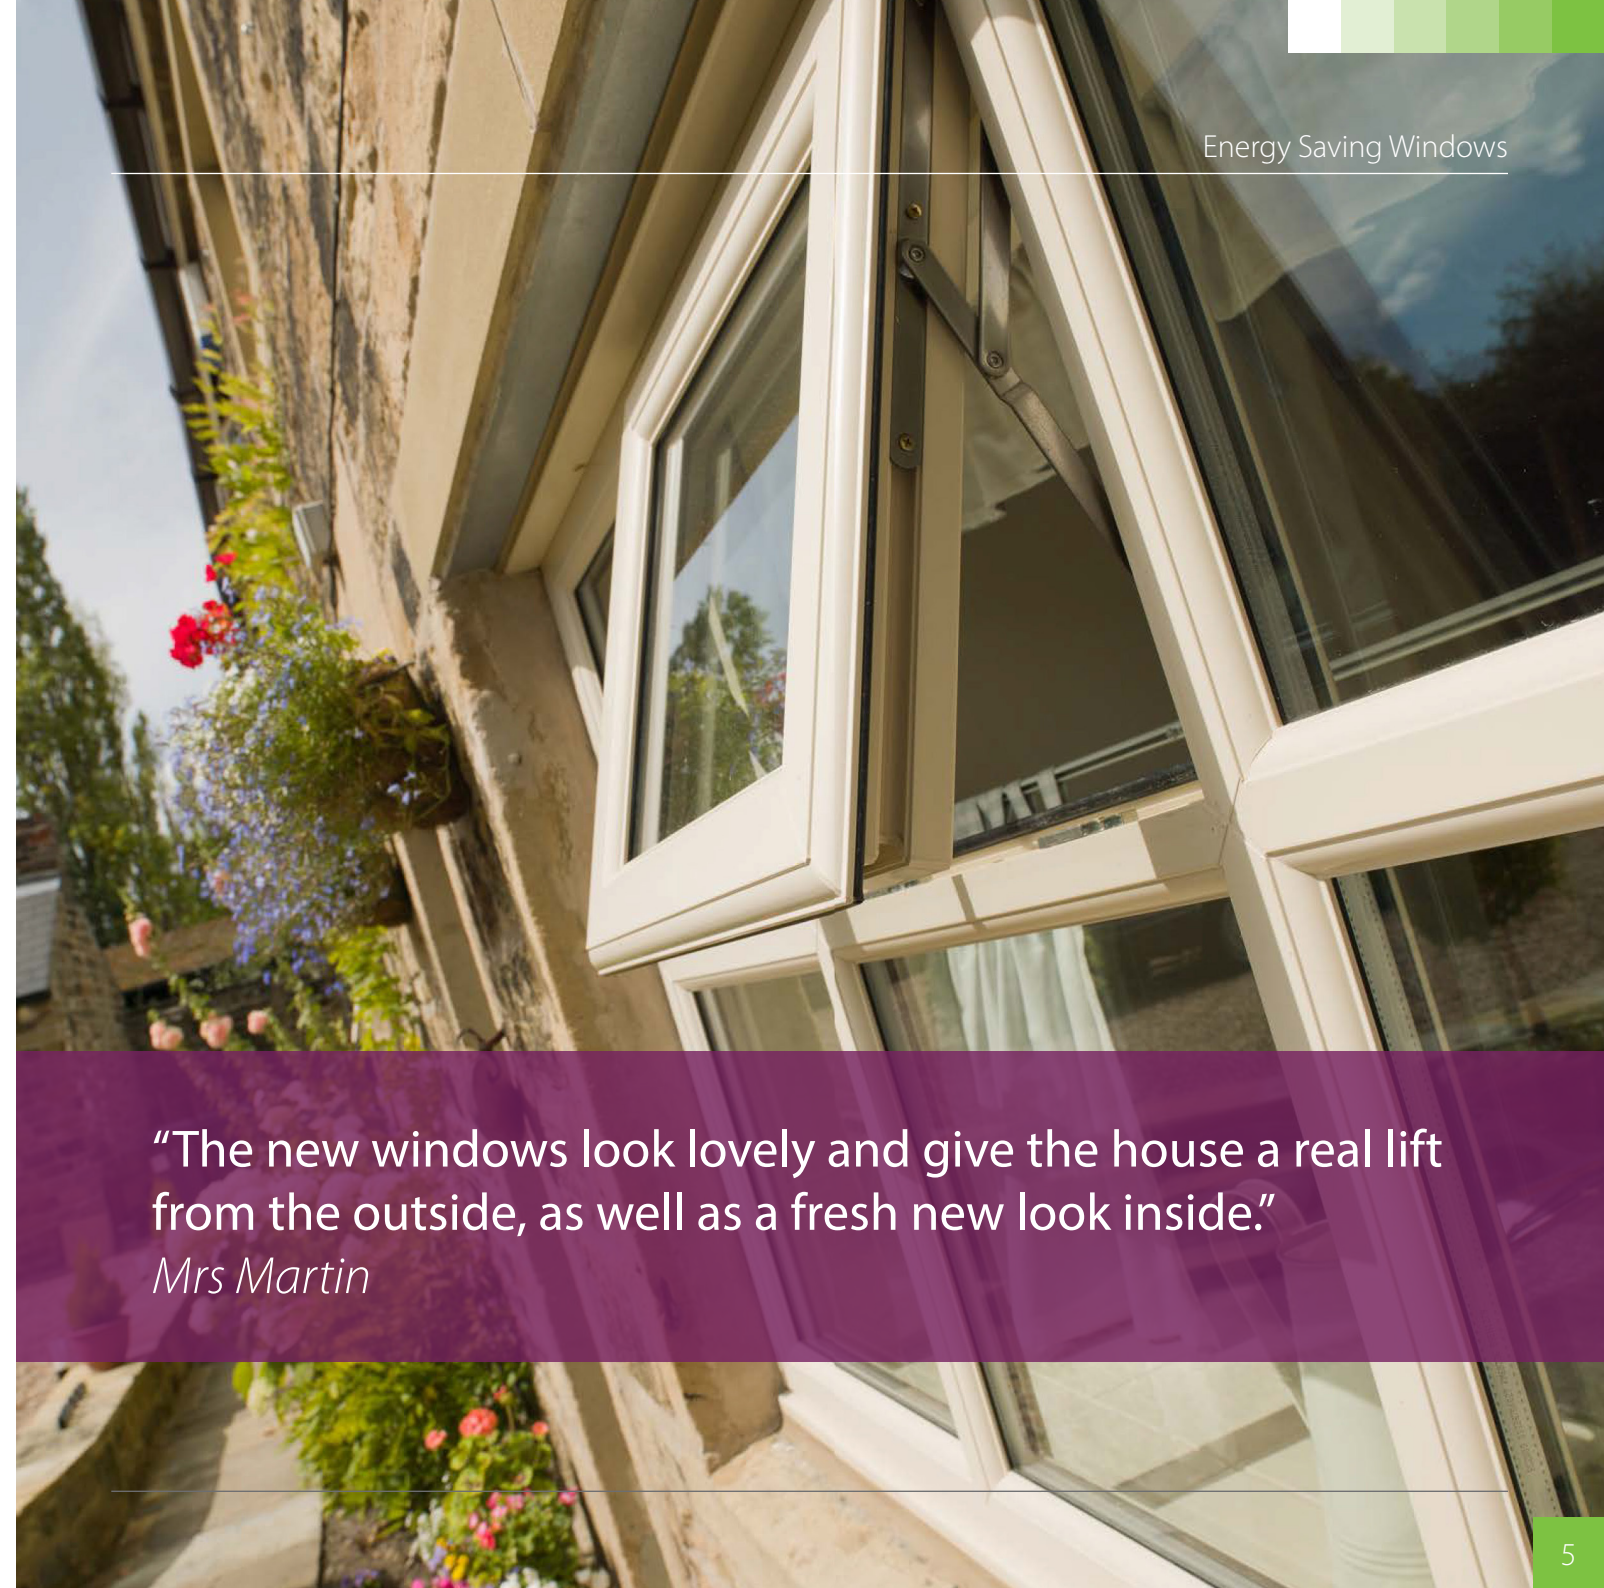

*Elegance, security, warmth*

Elegance, security, warmth - it's little wonder that our casement windows are so popular.

Throughout their long lifespan, these windows will save you money by retaining heat and they'll also make your home quieter and more secure. We use high-quality materials so they also maintain their good looks while being practically maintenance-free.

These windows allow maximum light into your rooms and provide a value-enhancing look to your home. You can even choose exactly what specification you want from our choice of hinges, openings, handles, decorative bars and glass. We will measure up to make sure we make them perfectly.

*"The new windows look lovely and give the house a real lift from the outside, as well as a fresh new look inside."*

*Mrs Martin*

"These are beautiful windows that really fit in with the style of our home. They are so much better than the ones they replaced, and so easy to use."  
Mr & Mrs Scott

## Sash Windows

*No compromise on security or energy-efficiency*

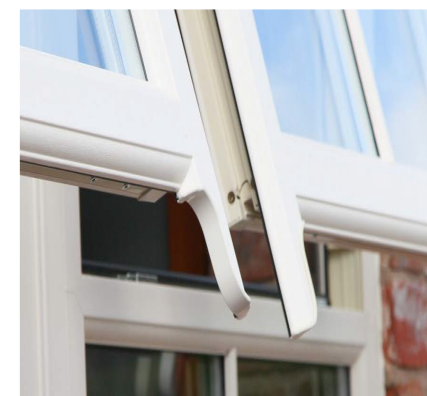

Also sometimes known as cottage or vertical sliders, our sash windows combine all the elegance of the Victorian and Georgian eras with the performance of the 21st century.

Modern sash windows use the latest technology to keep thermal, noise and security performance high, as well as ensuring you don't have to put up with the rattling that used to be typical of this type of window decades ago. We take the

time and meticulous measurements needed to ensure they fit your home perfectly.

You'll enjoy both the style and the extra space created thanks to the up and down style of opening, and the easy, smooth movement.

All these advantages come with no compromise on security or energy-efficiency.

## Tilt & Turn, Bay & bow & Cottage windows

*Elegance, security, warmth*

### **Tilt & Turn**

A triumph of both practicality and looks, our tilt & turn windows are energy-efficient, extremely secure, noise reducing and great looking but also tilt inwards and turn 90 degrees for both easy ventilation and cleaning.

### **Bay and bow windows**

These windows actually create space in your home. Alongside extra useable space, you also give your room a more spacious feel, invite the light in and give yourself a better view out too.

There's no compromise on security or energy-efficiency, just a beautiful new look for your home.

### **Cottage windows**

If your house needs to keep an authentic country look, then our cottage windows are perfect. By using internal glazing bars, we are able to create the appearance of individual panes but without compromising on modern standards of heat retention, security and noise reduction.

"We feel safer and more secure with our new windows, and we're delighted with the extra light that now floods into the room."

*Mrs Moore*

## Why Choose Us?

### Family Business

We understand that there are many companies out there who would like to sell windows, doors and conservatories to you. However, we believe that our 10 year history as a family firm serving this area is a clear demonstration of our commitment to delighting our customers and relying on word-of-mouth to spread our reputation.

Your business is important to us and we do understand that buying new doors, windows or conservatory are major purchases, therefore we commit to giving you a fair price, top quality service, high-class products and regular, clear communication at all times.

### The mark of quality

Secured by Design: With police backing, Secured by Design accreditation means exceptional and independently verified levels of security on our products.

We are a member of the BM TRADA Competent Person Scheme. By being so our customers can be assured that their installation meets with current building regulations, and following completion BM TRADA will provide a certificate directly to the homeowner to confirm this. In order to maintain membership we are subject to regular checks and audits. Your Building Regulations compliance certificate will be required by your legal advisors should you move house in the future.

Window Energy Ratings: We use these ratings so you know exactly what level of thermal efficiency to expect. We offer windows in energy ratings x and x.

### Total security

Whichever product you choose, you can be assured that its security features are of the highest standards, and that all glass is toughened to be incredibly robust.

### Ten Year Guarantee

We take our time to get our installations just right and we allow only fully-trained experts to take measurements and fit our doors, windows, rooftrim and conservatories so we confidently guarantee all of our products and workmanship for ten years. In reality, your Fineglaze product will last far, far longer.
